Master Living is a great trailer for competitive events, holidays or for general long distance travel. Comfortable, complete with everything a family would require for an overnight stay, and fully customisable. Light and maneuverable in transit, an enclosed trailer for the transportation of light vehicles, motorbikes, go-karts or ATVs.

Designed and built by *Turatello* in Italy and starting with a tubular galvanized steel chassis, welded and powdercoated. We are using 25mm honeycomb fiberglass insulated panels and Aluminum joints for the cover. The rear hatch opens upwards and it is weight assisted. AL-KO axles with torsion bar and inertia braking system.
